

### Description:

3P Overflow Siphon Uno  
With screw-threaded union connector  
DN 110, ideal for installation through  
plastic wall tanks.

### Technical Data:

Dimensions:  
540 x 160 x 270 mm

Material: Polyethylen

Union connector: DN110 with O-Ring

Weight: 1,1 kg

### Packing unit:

Carton 1150x790x1065 mm: 36 pieces  
Pallet: 72 pieces

## 3P Overflow Siphon Uno

Art.-Nr. 4000260

### Description:

3P Calmed Inlet DN 110/ DN 125

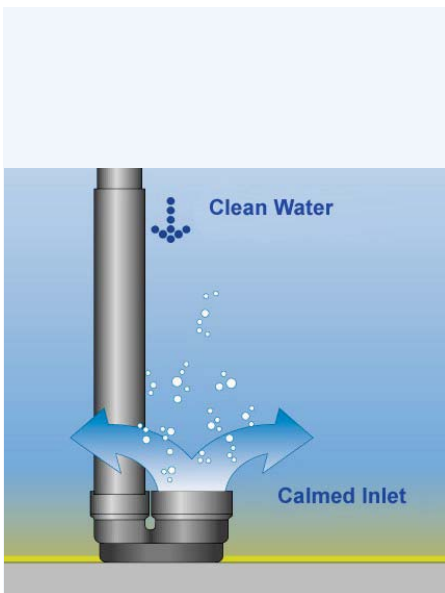

Provides a calmed inlet for rainwater in  
the storage tank. Prevents disturbance  
of settled sedimentation layer and  
supplies the lower part of the water  
with oxygen. Therefore the water  
remains fresh.

Made of Polyethylene.

The Calmed Inlet represents the second  
cleaning step in the rainwater tank.

## 3P Calmed Inlet DN 110/ DN 125

Art.-Nr. 4000100

### Technical Data:

Connection possibilities for pipes  
DN 110 and DN 125.

Weight: 0,5 kg

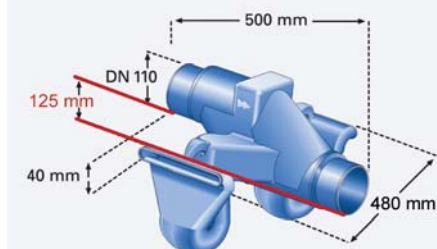

### Packing unit:

Carton 790x575x700 mm: 36 pieces  
Pallet: 216 pieces

EAN:

## 3P Overflow Siphon Duo

Is installed inside the rainwater tank, between the filter and the tank wall overflow outlet.

## 3P Overflow Siphon Duo

Art.-Nr. 4000200

## 3P Overflow Siphon Mono

Overflow siphon, with rodent and odour barrier, with skimming effect on tank water surface from chamfered inlet slots.

All 3P Siphons promote the best possible tank water quality. Adequate overflow is essential for optimum tank water quality, so that the water remains fresh.

### Technical Data:

Connection DN 110.  
Material: Polyethylen.

Weight 3P Overflow Siphon Mono: 2,0 kg

Weight 3P Overflow Siphon Duo: 2,2 kg

## 3P Overflow Siphon Mono

Art.-Nr. 4000250

### How it works:

As the tank water level rises, the water flows over the skimmer siphon inlet into the sewer or to an infiltration soakaway. Any floating materials are skimmed off via the chamfered slots. The surplus water with the pollen is led out of the rainwater tank. Outlet 110 mm.

Regular overflow is essential for optimum tank water quality, so that the water in the tank remains fresh.

### Packing unit:

3P Overflow Siphon Mono

Carton 1150x790x1065 mm: 16 pieces  
Pallet: 32 pieces

3P Overflow Siphon Duo

Carton 1150x790x1065 mm: 12 pieces  
Pallet: 24 pieces
